

ABOUT US

PROVIDING NOVEL SOLUTIONS FOR AN INCREASINGLY DEMANDING REGULATORY WORLD

We have a well-earned reputation for providing higher tier, non-standard support for challenging products in an increasingly demanding regulatory environment. Our team includes experts in environmental fate and behaviour, exposure and spatial modelling, ecotoxicology and toxicology.

We are also uniquely placed to offer aquatic toxicity testing (laboratory and mesocosms) and bespoke higher-tier environmental field fate experiments.

Our regulatory affairs team can guide you through the complete chemical regulatory process and provide specialist support in identifying, interpreting and meeting regulations applicable to your business and your specific chemical or product registration.

WE HAVE SPECIALISTS IN KEY AREAS OF REGULATORY PROCESSES:

- advocacy
- aquatic testing
- Classification, Labelling and Packaging (CLP) and Globally Harmonised System (GHS) classification, notification and labelling
- consortium management
- ecotoxicology
- endocrine disrupting chemicals
- environmental exposure modelling
- environmental fate
- environmental risk assessment
- field fate studies
- human exposure modelling
- human risk assessment
- post-submission support
- product stewardship
- programme management
- regulatory support
- safety data sheets (SDS) and extended safety data sheets (eSDS)
- Seveso Directive (COMAH) and food additives
- software development
- spatial data analysis and statistics
- toxicology
- training
- whole dossier or dossier section preparation.

ENVIRONMENTAL FATE

FIELD FATE AND STEWARDSHIP

EXPOSURE AND SPATIAL MODELLING

AQUATIC TESTING AND ANALYSIS

ECOTOXICOLOGY AND RISK ASSESSMENT

TOXICOLOGY AND HUMAN SAFETY ASSESSMENT

CHEMICAL REGULATORY SUPPORT

ABOUT CAMBRIDGE ENVIRONMENTAL ASSESSMENTS

Since 2001, CEA, an RSK ADAS Ltd company, has delivered bespoke strategic and dossier support for chemical and product registrations across Europe. Our team of more than 30 scientists brings together expertise from industry, research and regulatory authorities, thereby enabling us to find solutions to seemingly impossible problems.

Our services range from data evaluation and substance identification through state-of-the-art modelling and specialist higher-tier studies for the refinement of risk assessments to the compilation of whole dossiers or dossier sections. Our clients span manufacturers, formulators, end users, trade associations and regulatory agencies.

Visit our website or speak to a specialist to find out how we can help you to bring your products to market safely and quickly.
